

Important vocabulary!

FRACTION

A fraction is
a part of a
whole

What do fractions look like?

- The numerator - how many parts are selected or coloured in
- The denominator - how many equal parts something has been divided into

Practise
how to
write a half

1

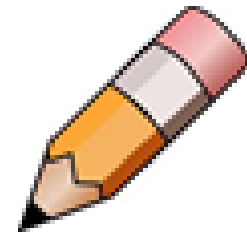

How many
parts have
been
selected

Draw
your
parting
line

2

How
many
equal
parts in
total

Steps to success!

1. Write the fraction sentence
2. Write the division calculation
What is the whole number? (quantity)
What are you dividing by? (denominator)
3. Bar model jottings - use the correct amount of equal parts
4. Colour in the numerator - colour the correct amount of parts
5. Write your answer!
