This week's maths unit is based on multiplication and division 😊

Day	What is the video about?	What is the activity for today?	What will you need? (Including attached resources)
Mon	Recapping our prior multiplication and division learning Recapping our division sharing jottings	Watch the video with us to recap your understanding of multiplication and division. Recap how to complete division sharing jottings. We will also be encouraging you to use the corresponding inverse multiplication calculations too. Solve the calculations using sharing jottings.	Paper Pencil Division calculations – attached Multiplication and division challenge – attached Vocabulary poster - attached
Tues	Recapping our division grouping jottings Recognising and using the inverse - multiplication	Watch the video with us to recap your understanding of multiplication and division. Recap how to complete division grouping jottings. We will also be encouraging you to use the corresponding inverse multiplication calculations too. Solve the calculations using grouping jottings.	Paper Pencil Division calculations – attached Multiplication and division challenge – attached
Weds	Recapping our understanding of arrays Writing multiplication and division calculations to match an array	Watch the video with us to recap your understanding of arrays. Arrays are all around us and we can use them to represent numbers and equal groups. We can use arrays to help us to represent families of numbers using the operations of multiplication and division. Write the fact family calculations to match an array using multiplication and division.	Paper Pencil Arrays for task – attached Multiplication and division challenge – attached
Thurs	Multiplication and division word problems	Practise applying your multiplication and division knowledge by solving a range of word problems. You will need to use your knowledge of multiplication and division to help you to solve these problems. Remember you can use division jottings to support your work – we recap our multiplication jottings on the video too!	Paper Pencil Word problems - attached

Fri	More complex multiplication and division word problems	These problems are more complex as they involve more than one step to solve them. Remember to complete each step to work out the final answer to each question. You will need to use your knowledge of multiplication and division alongside your careful jottings.	Paper Pencil Word problems - attached
-----	--	---	---

If you have any questions, please email year2@kingslea.org.uk - teachers will be checking this address to respond to in the morning.
