

Continuation of Learning Outline

YEAR 4

Work set for Friday 15.5.20

Good morning! We hope you have a lovely weekend. Here is the link to view today's Y4 video:

Reading

Activity: Complete the comprehension questions based on the piece about Tutankhamun (see pdf). Again, the answers are at the end of the document. Don't peek but do check them after you've finished. You could even improve your work with a purple pen (or whatever colour you have).

We are thrilled that so many children are reading a range of books and we love hearing about what you are reading! Keep reading 5x weekly and updating your reading journals when possible.

If you would like an extra written task this week, write a newspaper report based on an important event in your current book. Newspaper report toolkit: incident details, eyewitness account, direct and reported speech, past tense, layout – name, heading (catchy), pictures with captions.

Writing/English

Activity (you have Thursday and Friday to complete this): We would like you to produce a piece of work titled 'Our Planet'. Consider one, or a selection of the following areas: pollution, deforestation, urbanisation, global warming/climate change, invasive species, endangered species. You could include information on how people can help with these issues. First, you'll need to research your chosen topic(s). The following websites will help you.

<https://www.natgeokids.com/uk/discover/geography/general-geography/what-is-climate-change/>

<https://www.wwf.org.uk/get-involved/schools/resources/climate-change-resources> (explore their resources)

<https://www.dkfindout.com/uk/more-find-out/special-events/endangered-animals/>

You are free to present your findings as you wish. Some suggestions include:

- A mini-documentary
- A campaign poster/video
- A letter to the government explaining the importance of these issues being addressed

Maths

Throughout this week, we will be revising decimals, tenths and hundredths.

CGP Book task: Page 39 'Comparing Decimals'. TIP: The tenths digits have greater value than the hundredths. Think carefully and double check your answers, just to be sure.

Challenge: Page 41 'Solving Fraction and Decimal Problems'.

Online: This week is a TTRockstars week! Please complete 10 garage games over the week. Please also spend 30 minutes in the 'studio' this week too!

If you have any questions, please email year4@kingslea.org.uk and teachers will be checking this address to respond in the morning.

Thank you, from Miss Morris and Mr Biggs.
