

-un, -dis and –mis Definitions Activities

1. Have a look at the –un, -dis and –mis word list.

Underline any that you're unsure about.

Then, use a dictionary/online dictionary to explore the meaning of the word.

It will be helpful to check the root word as well, to ensure you understand the relationship fully. This will also help with the second activity.

2. Create four short word pair drama sketches, like Mr Biggs and Miss Morris did in the video.

For each sketch, demonstrate the root word and then the word with the prefix added. They should seem like opposites.

You can either do the sketches by yourself, or if you're lucky enough to have any willing volunteers, do it with them.

We'd love to see them so please feel free to record and send them in!
