

Fractions Activity - Addition and Subtraction Towers

Each pair of blocks totals the block above them. Use addition and subtraction to fill in the empty blocks and complete the towers.

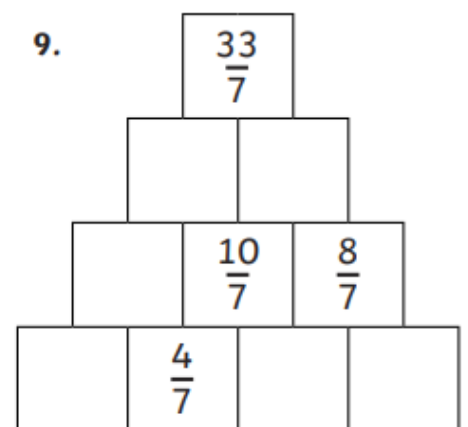

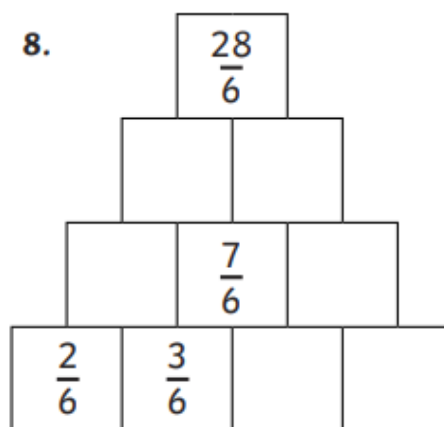

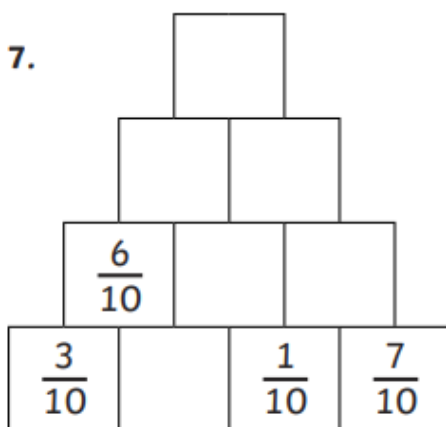

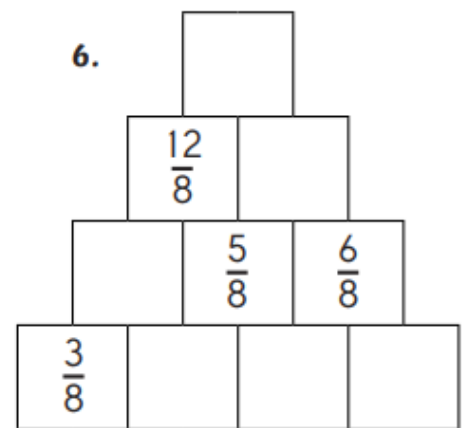

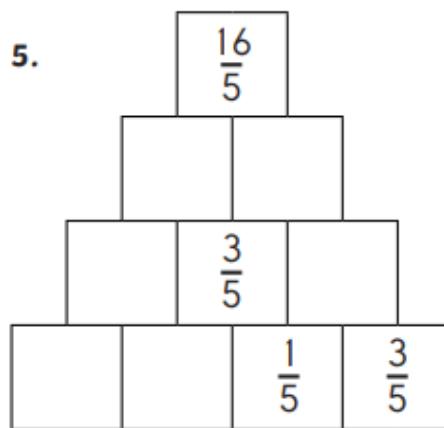

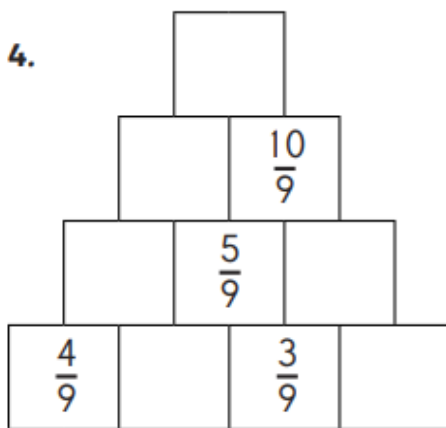

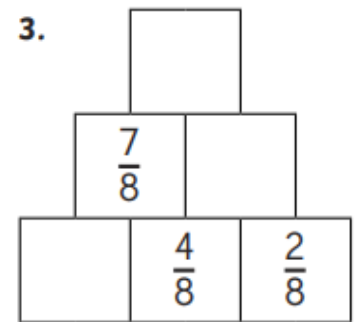

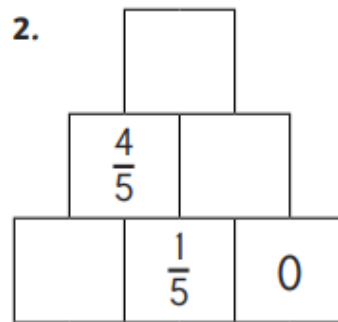

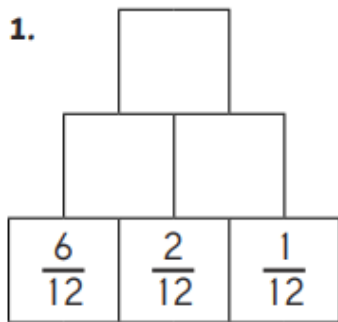

Complete either 'Hot' or 'Spicy', depending on your confidence.

Challenge: Can you give the answers as improper fractions and mixed numbers, where appropriate?

Hot

Spicy

Extension: Create your own fraction tower. Leave some of the blocks empty and get a family member to have a go.

Tip – Complete it all from bottom to top and then remove a few of the fractions.
