

Monday

How many quarters make a whole?

$$1 = \frac{4}{4}$$

How many sixths make a whole?

$$1 = \frac{6}{6}$$

If I have $\frac{2}{5}$, how many more do I need to make a whole?

$$1 = \frac{5}{5}$$

$$5 - 2 = 3$$

$$\frac{3}{5}$$

Complete the number line:
