Reading

Activity: For each day this week, you will be given a reading comprehension (see PDF attached). You will need to read the text and then answer the questions. As a challenge, you could write two questions of your own about the text. You can choose to read the text yourself or read it to/with an adult. Make sure you look up or ask an adult about any words you don't know (you could make your own word bank of new words for the week!)

We are thrilled that so many children are reading a range of books and we love hearing about what you are reading! Keep reading 5x weekly and updating your reading journals when possible.

If you would like an extra written task this week, place yourself in the shoes of one of the characters from a book you have read and write a diary entry. Try to choose a moment in the story in which the character has plenty of interaction and emotion to share in a diary entry (written in first person.)

Writing/English

This week we are going to focus on PSHE (Personal, Social, Health and Economic) themes. Your writing task each day will have a different link to our PSHE curriculum objectives.

Activity: Today's theme: The Importance of Healthy Eating

Your English project today is to research, talk about and write about healthy eating. You can make a poster informing younger children about what it means to eat healthily. Your poster will need to include facts and advice. It is up to you if you include pictures too! Here are some points to consider in your research:

- What are the 'food groups'?
- What does a balanced meal look like?
- Why is eating healthily just as important as having regular exercise?
- What do people mean when they say you can have treats 'in moderation'?

Maths

Throughout this week, we will be revising area and perimeter. Remember...

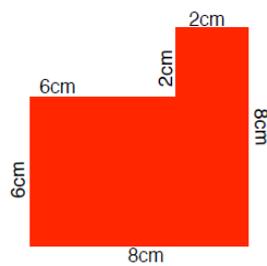

Area = the amount of space inside a boundary, shape or object.

Perimeter = the distance around the outside of a shape.

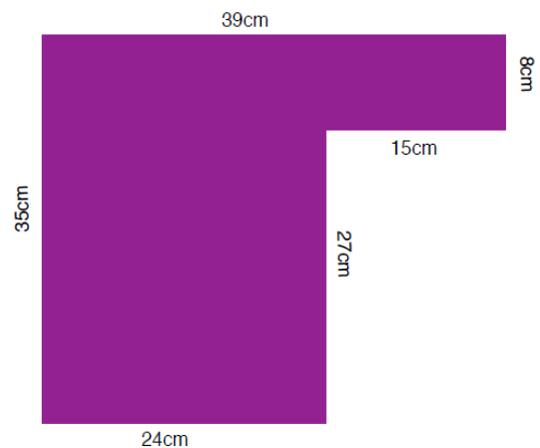

CGP Book task: Page 45 'Perimeter' TIPS: You will need to add all of the sides of a shape together to find its' perimeter. Squares have 4 equal sides!

Extra Challenge!

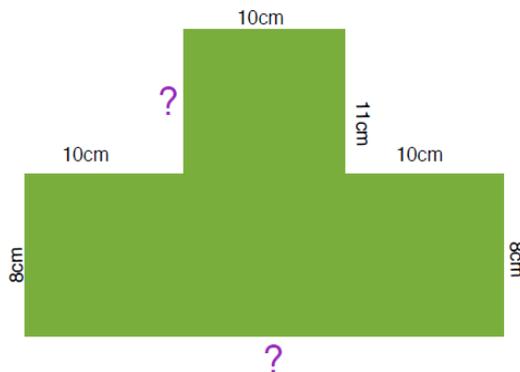

Find the perimeter of these shapes. Be careful to include every side!

The perimeter is _____ cm

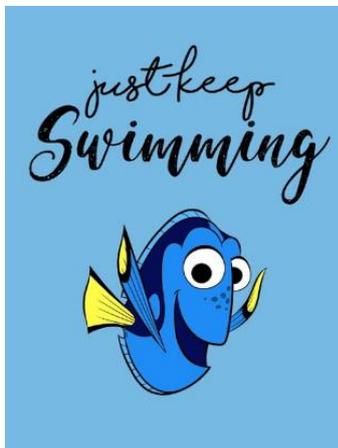

The perimeter is _____ cm

The perimeter is _____ cm

Online: This week we are back to a SUMDOG week! Please complete the [online Sumdog games](#) that we have set for you.

If you have any questions, please email year4@kingslea.org.uk and teachers will be checking this address to respond in the morning.

Thank you,

From Miss Morris and Mr Biggs.
