

Continuation of Learning Outline

YEAR 5

Project set for Easter Break

Over Easter we would like you to create a labelled image of what you think a rainforest looks like, what the different parts are called and what things you may find in them. You can do this on a computer as a labelled poster; you could paint a picture, draw a labelled scientific diagram or even create an image using junk that you may find around the house.

You may research rainforests if you like but don't worry if you can't do this, simply create what you **think** a rainforest would look like. What animals may you find? What plants and trees may live there? Are you going to include a river? What about houses or other buildings?

If you would like to share your creations with us please do email them to us at year5@kingslea.org.uk

We would expect you to spend a couple of hours on this across the two weeks. Enjoy!

See you all soon,

Mr King and Mrs Wingfield
