Reading

Today we are going to continue our work based on 'Babbity Rabbit And Her Cackling Stump' which is a short story from 'The Tales of Beedle the Bard' by JK Rowling.

In this story there are two characters that are hiding their identity. Why is this? Is there ever a good valid reason to withhold the truth and pretend you are someone else?

Draw a table like the one below and fill it in with the reasons for the characters hiding and your opinion of their motives.

Character	What is the character's real identity? Why are they hiding? (Include quotes and 2 – 3 pieces of information from the text)	My opinion of the character's actions – explain if you believe they are they right or wrong and say why.
The charlatan	Real identity – They are hiding because	I believe the charlatan's actions are because
Babbity the washerwoman	Real identity – They are hiding because	I believe the Babbity's actions are because

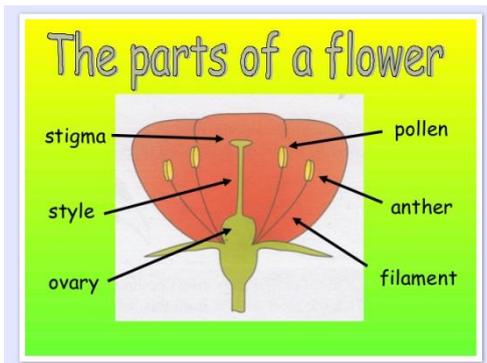

Writing/English

Today and tomorrow we are going to look at the different parts of a flower.

<https://www.bbc.co.uk/teach/class-clips-video/science-ks1-ks2-ivys-plant-workshop-the-anatomy-of-the-flower/zjmhkmn>

Watch this video then click on the Video transcript label just below the video. This will give you written information of the presenter's speech. This will help you with your task. We would like you to draw a cross section of a flower and label it. We have included a diagram below for you to copy. Write a short paragraph of 2 – 3 sentences explaining the function of each part of the flower. You can also visit this DK information page. Click on the named parts of the flower for information about their functions.

<https://www.dkfindout.com/uk/animals-and-nature/plants/parts-flower/>

Stigma

The stigma is at the tip of the carpel. Pollen sticks to this part of the flower. The pollen is transferred to the stigma when bees or other insects brush past it when they visit the flower to drink its nectar.

Here is an example to show you how to lay it out.

Maths

Please complete the Year 5 Objectives Test. This is on Page 74-77 in your CGP books. Once you have completed your test please mark it using the answers in the back of the book.

Online Maths:

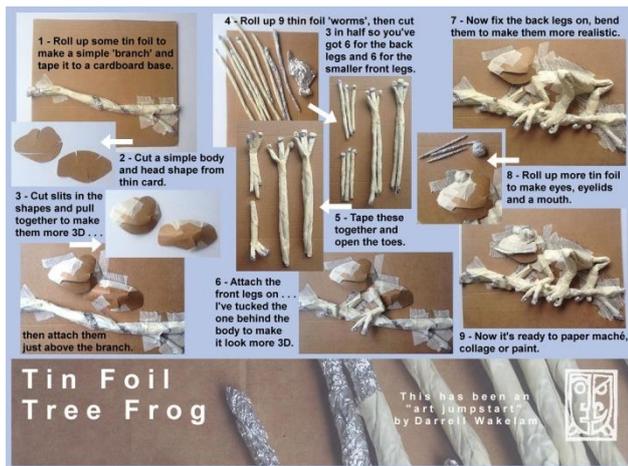

My Maths has been set for Mrs Wingfield and Mrs Baldwin's maths groups to complete.

Mr King's maths group are to complete 10 or more games in the Garage on TT Rockstars.

Let's Investigate:

Continue making a 3D collage of an Amazon tree frog.

You will need to collect items from around the house to do this and follow the step by step instructions to make your tree frog. Use a cardboard box opened out as your background.
