Reading

➢ **Reading with Mr M – *Holes* by Louis Sachar**
As usual, you have all the tasks written out on the Word doc on the website, but you could still complete one a day. Today we recommend that you watch Mr M's video, where he reads you a chapter of the book and then complete task 1 and maybe even task 2 as there are 6 tasks this week!

➢ **Look at the Hayfestival website and choose a video of the day to watch**. This can be instead of your daily reading – but doesn't have to be! You could even try some of the activities that the authors suggest.
https://www.hayfestival.com/c-247-programme-for-schools.aspx?resetfilters=true&localesetting=en-GB

Writing including Grammar, Punctuation and Spelling
Unit theme: Tying up loose ends!

➢ **SAT Busters**
You have three more tests to complete in your SATs buster book and a spelling test. You could work through these over four separate days.
Remember: Use the full 10 minutes to work carefully through the questions. If you need more time on the questions, then that is fine.

➢ **Publishing your story**
It would be really lovely if you could publish your story for your Learning Journey book. It should be a short story…but we know some of you have written rather a lot! So here are some options:
- If you typed your story, publishing your story will be easy. However, we would like to be able to print it in a book form. This option is available on Word or Publisher. If you do not have a printer, email it to us (set up in book form) and we will print it.
- If you hand wrote your story you could either type it up or write it up on nice paper (you could also make it into a book.
- If you have written more than 5 A4 pages then perhaps choose a section to publish rather than the whole thing. Make sure it is the highest quality section in your story and full of good description and punctuation.

Whatever option you choose, think about the presentation. Pictures will add a decorative layer to your published piece and if it is in book form then include a front cover – you could even do a blurb. Because we want you to focus on the presentation, we are not setting an art task this week, so you will have more time.
You also need to make sure you have completed a thorough proof read, before you start writing up.

Maths
Week theme: Algebra

➢ **MyMaths** – you all have at least one MyMaths task to complete before the end of Thursday.

➢ **Finding all possible solutions**
Today your task is very similar to Friday. This time you've got to find all the possible outcomes and your tasks are in the form of word problems.

Walk	Run	Sprint
Adult tickets for a concert cost £5. Children's tickets cost £3. A group of people pay £46 for their tickets. Find all the possible combinations of adult and child tickets for this amount.	Andy has 46 straws. Find all possible ways he can use all 46 straws to make squares and triangles.	The angles of a quadrilateral are all multiples of 5 degrees. Three of the angles are equal and larger than the fourth angle. Find all possible combinations of angle sizes of the shape.
Esme has 2p and 5p coins only. She has 39p. List all possible combinations of 2p and 5p coins which can make 39p.	A farmer has 86 eggs. The eggs are put into boxes of 6 or 8. Find all the possible ways in which all 86 eggs can be put into boxes.	A cinema has 16 or 20 seats in each row. There are 412 seats in the cinema. Find all the possible combinations of rows of 16 and 20 which result in 412 seats.

Challenge: The Seven Dwarfs were born on the same day, in seven consecutive years. The ages of the youngest three add up to 42 years. What do the ages of the oldest three add up to?

Learning Journey / Foundation Subjects (ongoing throughout the week)

Below are listed the foundation subject tasks for this week. We recommend that you complete one a day, but how you organise your time is up to you. We may give you more detail during the daily videos, so sometimes it is worth waiting.

➢ **Monday – PSHE –** This week, you will be checking your answers from the true or false quiz about personal hygiene from last week. You will do this by watching the video made by Mrs Payne. It would be useful if you can then discuss your answers and corrections with an adult.

➢ **Tuesday – Learning Journey –** This week we would like you to compose an advert for a mountain holiday. Things you could include are the following:

- What your mountain might be famed for e.g. spectacular views, a ski resort, cable car rides, climbing
- What the surrounding area has to offer e.g. a nature reserve, shops, restaurants, a range of activities to help tourists explore the area. These could also be referred to as places of interest
- You might want to consider a two or three centre holiday e.g. 'Three Peak Explorer Holiday'
- Remember to include types of accommodation
- An itinerary if appropriate

Think carefully about the language you use - you are persuading people to take up your holiday idea e.g. *Discover the area's natural beauty with a ride on the Cog Railway to the Mer de Glace.*

➢ **Wednesday - Art –** No official art task this week – but it gives you time to make your front cover and the pictures within your English story really creative.

➢ **Thursday – Something different! –** This week, we would like you to start thinking about what you might write on your page of the Leavers' book. We will explain in the daily video more about the Leavers' Books. We would like you to choose 5 sections that you wish to have on your page and write what could go in these sections. You are looking to write about 3 sentences in each section. Remember that everyone will be able to read your page, so make sure it fits our Kingslea ethos! Ideas for sections are below, but you can come up with your own:

• Favourite school trip	• Most memorable moment
• Most embarrassing moment	• Sports day memories
• Funniest moment	• Starting school memory
• Best achievements	• KS1 memories
• Favourite learning journey	• Favourite school day

➢ **Friday – PE –** We are still giving this time over to the Sussex Games challenges. This week's challenge is Gym and fitness. We think this week has some great challenges that everyone can have a go at. As always, please send us your videos of your challenges – we know Mr Mothee has loved watching the ones that have come in. Remember you can find out more information on this webpage: https://www.activesussex.org/virtual/

So a different Year 6 KPS Challenge this week…

We appear to have forgotten to renew our House Captains this term! We thank the current House Captains for their contributions over the spring term and the first half of the summer term, but it's time to give more of you the opportunity to have a go. It may be a slightly different role to what we have been used to, but there are still plenty of jobs for the captains to complete in this final half term! It is a role that impresses secondary schools and is an opportunity to be a role model to others, have more responsibility and show how fantastic you are! So, we will hold House Captain Elections on Friday 5th June. It will be in video form so that wherever we are, we can all watch and vote. If you would like to put yourself forward, make a video at home and send in to the year email below (be creative with your videos and make sure you stand out to your peers). If you are unable to video a presentation, then plan out what you would like to say and if we are back at school, we will let you borrow an Ipad and you can film it after half term. Presentations need to be completed by **Wednesday 3rd June**.

We understand that everyone is in a unique position and will complete the above work at different levels. Please just try and do what you can and do not worry if anything is too difficult. Do give us any feedback and enjoy this time. We would love to see the work you produce, but you do not have to send everything to us. We would just really like to hear from you at least once a week and may phone you to touch base! We miss you!

If you have any questions, please email year6@kingslea.org.uk and teachers will be checking this address regularly.

Maths answers:

Walk		Run		Sprint	
2 adult, 12 child		Squares	Triangles	Large	small (degrees)
5 adult, 7 child		10	2	95	75
8 adult, 2 child		7	6	100	60
		4	10	105	45
		1	14	110	30
				115	15
2 ps	5ps	Sixes	Eights	16s	20s
2	7	1	10	2	19
7	5	5	7	7	15
12	3	9	4	12	11
17	1	13	1	17	7
				22	3

Challenge answer:

Suppose the youngest dwarf is x years old.

Sum of the ages of the youngest three is
$x + (x + 1) + (x + 2) = 3x + 3$
Sum of the ages of the oldest three is
$(x + 4) + (x + 5) + (x + 6) = 3x + 15$.

We know that $3x + 3 = 42$, so $3x + 15 = 42 + 12 = 54$, so the ages of the oldest three of the Seven Dwarfs add up to 54.
