Geometry

2D and 3D shapes

Activity 1

Using the word bank below, write the correct name of each 2D and 3D shape.

Make sure you copy these spellings carefully.

sphere	kite	square-based pyramid	triangular prism
decagon	triangle	rectangle	rhombus
cone	cylinder	cube	cuboid
tetrahedron	circle	rectangular prism	cube

Activity 2

Which of these statements are correct?

- A square is a rectangle A cube has four faces.
- A rectangle is a square. A rhombus is not a parallelogram.

Explain your reasoning:

I know this because _____

Activity 3

Sid the Snake only likes shapes which roll.

Sophie the Spider only likes shapes which stack.

Which of these shapes would they each like?

Draw lines from the shapes to the correct animal.

Would any of the shapes be liked by both animals?
